Brent Cross Plot 15, Barnet *Cost Consultant*

Chris completes monthly valuations for the works completed on Brent Cross which is subsequently used to produce a detailed cost report for the client. Chris further assists with the valuing and instructing of CRF's.

99 City Road, Shoreditch *Cost Consultant*

Within City Road Chris assists with the tracking and costing of architectural changes

40 Long Acre, Location *Cost Consultant*

Chris' role within 40 Long Acre including the creation of pricing documents ready for contractor pricing, analysis of architectural drawings to identify the scope of works and the creation of a contract using the SBC nec4

Saint Mary's Wharf, Guildford *Cost Consultant*

This project saw Chris undertaking monthly site visits, valuations and costs reports. Additionally, Chris undertook a comprehensive measurement including the entire project façade and internal fit out of apartments. Chris further aided by directly communicating with contractors through market testing to gain accurate cost information on products presented by the architect.
